

## Funded Ph.D. Positions at the International Max Planck Research School for Intelligent Systems

The Max Planck Institute for Intelligent Systems and the Universities of Stuttgart and Tübingen are collaborating to offer **an interdisciplinary Ph.D. program**, the International Max Planck Research School for Intelligent Systems. This doctoral program will accept its third generation of Ph.D. students in spring 2019.

This school is a key element of Baden-Württemberg's "Cyber Valley" initiative to accelerate basic research and commercial development in **artificial intelligence**. We seek students who want to earn a doctorate while contributing to world-leading research in areas such as

- Computer Vision
- Machine Learning
- Robotics
- Haptics
- Micro- and Nano-Robotics
- Control Systems
- Perceptual Inference
- Computer Graphics

The participating **faculty** are Frank Allgöwer, Philipp Berens, Matthias Bethge, Michael J. Black, Andrés Bruhn, Martin Butz, Caterina De Bacco, Peer Fischer, Andreas Geiger, Martin Giese, Matthias Hein, Philipp Hennig, Ardian Jusufi, Katherine J. Kuchenbecker, Hendrik Lensch, Falk Lieder, Georg Martius, Mi Jung Park, Ludovic Righetti, Bernhard Schölkopf, Fabian Sinz, Metin Sitti, Alexander Spröwitz, Ingo Steinwart, Joerg Stueckler, Gabriele Schweikert, Marc Toussaint, Sebastian Trimpe, Isabel Valera, Ulrike von Luxburg, and Felix Wichmann.

Intelligent systems that can successfully perceive, act, and learn in complex environments hold great potential for aiding society. To advance human knowledge in this domain, we need doctoral students who are curious, creative, and passionate about research to join our school. **Learn more at <http://imprs.is.mpg.de>**

- All aspects of the program are in English.
- You may join our program in spring 2019.
- You will be mentored by our internationally renowned faculty.
- You will register as a university graduate student and conduct research for approximately three years.
- You can take part in a wide variety of scientific seminars, advanced training workshops, and social activities.
- Your doctoral degree will be conferred when you successfully complete your Ph.D. project.
- Our dedicated coordinator will assist you throughout your time as a doctoral student.

People with a strong academic background and a master's degree in Engineering, Computer Science, Cognitive Science, Mathematics, Control Theory, Neuroscience, Materials Science, Physics, or related fields should apply.

We seek to increase the number of women in areas where they are underrepresented, so we explicitly encourage women to apply. We are committed to employing more handicapped individuals and especially encourage them to apply. We are an equal opportunity employer and value diversity at our institutions.

Admission will be competitive. If selected, you will receive funding via an employment contract, subject to the rules of the Max Planck Society and the two participating universities.

You can **apply** at <http://imprs.is.mpg.de> before midday CET on **November 15, 2018**.

The selection interviews will take place between January 29 and February 1, 2019 in Stuttgart and Tübingen, Germany.
